RATIONALE

Employability skills are those personal social behaviors and daily living habits that have been identified by employers and young entry-level workers as essential for obtaining employment and for success in the work place. These are life skills that must be taught with the same rigor as basic skills. The development of such skills is a life long process, with performance being relative to a child's ability and age. Parents have the responsibility to teach and expect employability skills from children of all ages.

GENERAL DIRECTIONS

This criterion-referenced checklist may be used yearly, beginning at the age of 14, to assess child's level of performance in the twenty-four critical employability skill areas identified by Ohio's Employability Skills Project. Three descriptors are provided for each skill. Child performance should be rated using the following scale: 3 = usually, 2 = sometimes, 1= seldom, 0 = never.

EXAMPLE (for a 14 year old child)

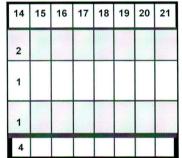

I. SELF HELP SKILLS

- A. Demonstrates personal hygiene and grooming by:
- meeting parent expectation for cleanliness.
- meeting parent expectation for good grooming (hair combed, shirt tucked in, etc.

T

 meeting parent expectation for consistent, independent personal hygiene and grooming.

AGE

B. Dresses appropriately by:

- choosing and wearing clothes that are appropriate for the weather/activity/ social custom.
- identifying when clothes should not be worn (dirty, ill fitting, etc.).
- wearing clothes that are in good condition, clean and pressed with detail given to appearance.

AGE

14	15	16	17	18	19	20	21
2							
3							
1							
6							

Scores for each descriptor are added, provided a value that can be recorded on the Child Profile of Employability Skills. When completed, the profile yields a graphic representation of employability skills performance that will help in planning instruction.
